Call for Last-Minute Posters

(Late-breaking results, Poster option for oral presenters)

It is our pleasure to announce the call for "last-minute" poster presentations at PHMAP23 to facilitate further knowledge exchange among participants. These "last-minute" poster presentations are different from the regular oral / poster papers:

- Category 1: Late-breaking results posters

All registered participants (excluding oral/poster presenters of regular papers) are invited to apply for this category. Applicants must submit the title and abstract (100-200 words) through EasyChair by **August 21st**. Notably, this category does not require a full paper submission, and presentations will not be included in the conference proceedings. The committee will check the submissions quickly based on FIFO policy and send the notification within a few days. Accepted presenters must expeditiously register and complete payment within two days of notification, and upload the poster through EasyChair by **September 4th** and bring it to the conference site.

We cannot receive requests for VISA documents for this category due to time constraints. The presentations of this poster category are eligible for the PHMAP23 best poster award.

- Category 2: Poster option for oral presentations

Authors of accepted regular papers for oral presentations are invited to participate in this category, granting them the opportunity to present their works in both poster and oral sessions. As the number of available poster panels is limited, the committee will select papers for presentation in this category if applications surpass the available slots. Applicants are requested to notify the committee by sending an email to secretariat@phmap.jp before **August 21st**. The selection results will be announced by **August 28th**. Accepted presenters must upload the poster through EasyChair by **September 4th** and bring it to the conference site.

Please note that presentations in this category are not eligible for the PHMAP23 best poster award, while remaining eligible for the best paper award.

PHMAP23 will feature two dedicated poster sessions scheduled from 9:00 AM to 12:00 PM on both the 13th and 14th of the conference. During these sessions, presenters are requested to actively engage with the attendees, standing by their posters for interactive discussions between 9:00 AM and 10:00 AM. It is imperative to acknowledge that the selection process for these poster presentations involves a rigorous committee evaluation. Accepted posters will be thoughtfully assigned to one of the two sessions.

We eagerly await the submission of your insightful contributions!
